### **Course Description:**

Basic Precision Marksman introduces students to the fundamentals of precision marksmanship and observation skills. The overall course will focus on developing a solid foundation in the basics of utilizing a precision weapon system and functioning in the role of a law enforcement marksman/observer.

This course is eligible for 50 hours of TCOLE training under #3324.

### **Topics Covered:**

Precision Rifle nomenclature and setup

Fundamentals of rifle shooting

Ballistics and intro to ballistic apps

Mil/MOA measurements

Zeroing procedures

Positional shooting

Tripod utilization

Equipment selection

Legal liabilities and case law

Hide construction

Cold bore and target analysis

Range estimation

Stress shooting

TCOLE Qualification

### **PREREQUISITES:**

All students are required to be either current law enforcement or active-duty military assigned to a tactical unit and in good standing. Students must be able to provide valid agency credentials on the first day. This course will entail some physical activity, so students must be physically fit.

\*NOTE\* One of the days will start later and run into the evening hours, allowing for low-light training.

THIS IS A CERTIFICATION COURSE - THE STUDENT WILL HAVE A WRITTEN AND PERFORMANCE TEST AT THE END OF THE COURSE.
