

Training Name: Firearms

Course Name: Dynamic Pistol/Rifle Performance (In Extremis Performance)

Dates: 11/09/2026 - 11/10/2026

Venue: Les Early Firearms Training Center
Pasadena, Texas 77507

Price: \$600

Instructors: Jake Labhart
Josh Barnett

Course Description:

****The Texas Tactical Police Officers Association (TTPOA) Regional 2 Directors will be available to address inquiries via email and will respond between the hours of 1500 and 0700 or on weekends as necessary.****

The purpose of this class is to enhance the shooter's ability to perform the fundamentals of shooting and movement on demand. This can only be accomplished by having a deeper understanding of both skills, individually, before using them simultaneously. These skills combined are the core of any callout, OIS, or engagement of a LEO.

This class focuses on shooting fundamentals and advancing to dynamic shooting. The course will build fundamental concepts while allowing each shooter to increase their performance not only in the class, but also in understanding how to guide their personal training after the class. Additionally, we will focus on how to move with speed while maintaining control to better put accurate rounds on target sooner.

This class will optimize each attendee's performance while directly enhancing skills that are used as a LEO. We prioritize skills needed for officers at the highest level of application for the most important part of their job.

Schedule:

Day 1:

[0800-0830](#) Safety Brief/Intro
[0830-0900](#) Shooting Warm-up
