Course Description:

Course Overview

TTPOA, in conjunction with Corpus Christi PD UAS Program & SWAT Team, will be hosting a 3-Day Course on the utilization of drones in the tactical world. Over the past years, the use of drones has increased and shown to be a valuable resource for public safety. Tactical teams continue to incorporate this technology when conducting various high risk operations.

Topics Covered

This training will cover the essential skills and techniques for deploying drones in dynamic environments, focusing on reconnaissance, surveillance, and advanced operational strategies. Students will engage in hands-on exercises, scenario-based training, Some of the topics to be covered include:

- Program Development
- Policy Building
- Part 107 and How It Applies to TacOps
- Equipment Selection
- Intelligence Gathering Prior To & During Operations
- Techniques in Interior Clearing
- Exterior Operations

Pre-Requesites & Equipment Needs

- Part 107 or COA Certification from Department
- Outdoor and/or indoor drone from reputable manufacturer. If lacking one or the other, contact POC.
- 4 Batteries Minimum w/ power supply or recharge capabilities
- Work in conjunction with tactical team recommended but not required

Payment Information

Credit card payment is strongly recommended.
