Dates: 08/20/2025 - 08/22/2025

Venue: Bob Bolen Public Safety Training Complex
Fort Worth, TX 76115

Price: \$800

Instructors: Trey Lindsey

Course Description:

Description:

This 3-day course will focus heavily on the necessary individual operator, team leader, and instructor level skillsets to successfully conduct and teach Close Quarter Battle (CQB) tactical operations in a mixed light environment. This course curriculum is designed as a “train the trainer” approach with a wide range of skillsets covered from individual operator procedures to senior team leader tactical clearance flow methods while operating in mixed light conditions. This course will also explain the major tactical differences between deliberate and dynamic CQB to help determine which method should be used for different types of law enforcement operations for the scenario they are faced with. A wide range of individual and team leader level techniques will be taught to ensure that both junior and senior officers are prepared for a wide range of CQB operational challenges while conducting law enforcement operations in a wide range of lighting conditions. Participants will also understand the “Hybrid” clearance concept in certain situations where deliberate and dynamic CQB tactics are morphed together to provide the officer the best chance for success in a chaotic high-risk scenario. CQB clearance methodology with each type of tactic will be explained so participants have a high level of understanding of how each tactic is implemented, especially when faced with various lighting conditions. CQB RSO setup and instructional training points will also be covered ensuring each participant has enhanced knowledge to take back to their respective departments and agencies.

This course is designed as a standalone training block of instruction but is complemented by the NVG 2 Day Tactical LEO Carbine and Pistol Instructor Course held the same week on Monday and Tuesday in the same region. Participants who attend all 40 Hours of the 2 Day and 3 Day courses will receive an Advanced NVG Shooting and CQB Tactics Instructor Certificate

Training objectives

- ? Equipment set up to include primary, secondary, and tactical gear for mixed light operations
- ? Instructor level Basic to advance weapons handling for CQB operations for mixed light operations
