*******YOU MUST HAVE COMPLETED AT LEAST A BASIC EXPLOSIVE BREACHING CLASS IN ORDER TO ATTEND THIS CLASS, IT WILL BE VETTED BY GUILD SOLUTIONS GROUP PERSONNEL*******

This is a five (5) day intensive, energetic applications program. This program is designed to provide you with an intermediate to advanced understanding and bridge the gap between technical knowledge and tactical application in a current, legal, and professional manner. This program was designed by and for Law Enforcement based on modern practices that apply both improvised and commercial applications. In the 45 hours, we will build upon a fundamental understanding of off-site target analysis and fortified structure defeat (barricades). We will also instruct individuals on HR/Hasty charge placement and mission planning, including approach, target actions, post-access procedures, and mitigation of potential prosecution.

Along with new charge applications and legally correct terminology, we will provide information on low/no-light applications using the latest technology, including K9s, Drones, and thermal applications. Attendees will also be equipped with the knowledge and understanding of the legal implications of such processes and be able to minimize civilian casualties. This course provides continuing education for anyone seeking to conduct energetic breaching operations at an operational tempo and is an essential resource for law enforcement and government agencies.

FOUNDATIONAL ENERGETIC BREACHING KNOWLEDGE IS REQUIRED BEFORE ATTENDANCE.

Program Refund & Cancellation Policy:

- Cancellation sixty (60) days before the program's start date: Full Refund
- Cancellation fifty-nine (59) days to thirty (30) days before the program's start date: \$100.00 administration fee
- Cancellation twenty-nine (29) days or less: No refund, but it could be credited to another program.
