Course Description: Overview

This is a hands-on program that teaches and guides each participant through all armorer operations step by step with the instructor. Active participation coupled with question and answer periods provide a supportive learning environment for maximum retention of the material. The course is also well suited for law enforcement armorers to design their agency's own maintenance and inspection program. Maintaining current practices and procedures for factory authorized service is essential for all pistols. A three (3) year factory certification is issued upon successful course completion.

Experience Requirements

This training course is specifically designed for current or prospective agency firearms armorers, firearms retailer staff, and responsible citizens.

Course Outline

- Identification of SIG SAUER P320 pistol features
- Examination of the P320 safety systems
- Comprehension of pistol cycle of operation
- Disassembly and assembly procedures of slides, frames, and magazines
- Installation and adjustment procedures of sights
- Implementation of inspection procedures
- Troubleshooting methods
- Performance of function checks
- Application of acceptable maintenance methods

In order to receive a certificate of completion, students will attend 8 hours of training and pass a written test. Students will demonstrate proper disassembly, assembly, understanding of the operating systems, and proper parts replacement.

Disclaimer: Instructors have the discretion to add or remove topics of discussion based on the safety and capabilities of the students throughout the duration of the course. This is to ensure that every student is learning in a safe environment and receives applicable training based on students' skill set at the time of the course.
