

Training Name: Tactics

Course Name: Tactical Drone Deliberate vs Dynamic CQB Course

Dates: 09/23/2024 - 09/25/2024

Venue: Garland Training Site
Garland, TX 75042

Price: \$800

Instructors: Trey Lindsey

Course Description:

Description- This 3-day course will focus heavily on the necessary individual operator, team leader, and instructor level skillsets to successfully conduct and teach Close Quarter Battle (CQB) tactical operations with a heavy emphasis on. Domestic law enforcement tactical drone applications. This course curriculum is designed as a “train the trainer” approach with a wide range of skillsets covered from individual operator procedures to senior team leader tactical clearance flow methods while utilizing drones to mitigate risk to the officers. This course will explain the major tactical differences between deliberate and dynamic CQB to help determine which method should be used for different types of law enforcement operations for the scenario they are faced with. It will also cover in depth the tactical capabilities and limitations implementing drones with each type of CQB tactic used.

A wide range of individual and team leader level techniques will be taught to ensure that both junior and senior officers are prepared for a wide range of CQB operational challenges faced with tactical drone employment scenarios. Participants will also understand the “Hybrid” clearance concept in certain situations where deliberate and dynamic CQB tactics are morphed together to provide the officer the best chance for success in a chaotic high-risk scenario. CQB clearance methodology with each type of tactic will be explained so participants have a high level of understanding of how each tactic is implemented also understand how to employ the drone to obtain the highest level of officer safety. CQB RSO setup, instructional training points, and drone implementation training will also be covered ensuring each participant has enhanced knowledge to take back to their respective departments and agencies.

This course is designed NOT as a drone pilot certification course! All drone operators are expected to have a basic knowledge of drone piloting. This course is meant for assigned drone operators and tactical team leaders and assistant team leaders.

Training objectives covered-

- Drones in domestic law enforcement case law studies

- Various types of drone equipment available to domestic law enforcement
